# Mental Health Resources

WCHS  
Mental Health Awareness Week 2022

# The mental health stigma

- Stigma often comes from lack of understanding or fear. Inaccurate or misleading media representations of mental illness contribute to both those factors.
- Stigma around mental illness especially an issue in some diverse racial and ethnic communities and it can be a major barrier to people from those cultures accessing mental health services.
- Media representations of people with mental illness can influence perceptions and stigma, and they have often been negative, inaccurate or violent representations.
- Research shows that knowing or having contact with someone with mental illness is one of the best ways to reduce stigma. Individuals speaking out and sharing their stories can have a positive impact. When we know someone with mental illness, it becomes less scary and more real and relatable.

Researchers identify different types of stigma: (See chart below.)

- Public stigma involves the negative or discriminatory attitudes that others have about mental illness.
- Self-stigma refers to the negative attitudes, including internalized shame, that people with mental illness have about their own condition.
- Institutional stigma, is more systemic, involving policies of government and private organizations that intentionally or unintentionally limit opportunities for people with mental illness. Examples include lower funding for mental illness research or fewer mental health services relative to other health care.

# Reaching out for help

- It can be hard to bring up how you're feeling with anyone, for fear that they'll ask a lot of questions or not understand, or even be upset with you, but it's a really important step
- Even if they cannot directly help you, it is a beneficial conversation to have for both parties
- Talk to a parent, any trusted adult, or a close friend
- You can help reduce the anxiety of the conversation by planning out what you're going to say
- If you aren't ready to talk in person, you can write a letter, email, or text too
- If you can, tell this person what you need and how they can provide the support you deserve/need

# Resources- Hotlines

Suicide Prevention Lifeline	1-800-273-8255 (also available on the back of your student ID)
National Suicide Hotline	1-800-784-8433
Crisis Text Line	text HOME to 741741
Depression Hotline	1-630-482-9696
Depression Text Line	text CONNECT to 741741
Eating Disorder Hotline	1-800-931-2237
Eating Disorder Text Line	text NEDA to 741741
National Rape and Sexual Assault Hotline	1-800-656-4673
LGBTQ+ Crisis Hotline	1-800-246-7743
Grief Support	1-650-321-5272
Exhale (after abortion hotline)	1-866-439-4253
Teen Line	1-800-852-8336
Trevor Project “...an American non-profit organization...focused on suicide prevention among lesbian, gay, bisexual, transgender, queer, and questioning youth.”	1-866-488-7386

# Resources- Apps

- **Motivation-** Daily inspirational quotes and positive affirmations, can get as many as you want per day or get notifications for them
- **Woebot-** A free therapy robot and chat where you can log how you're feeling and do daily check ins
- **Recovery Record-** Helps with your recovery goals and to stay on track with a recovery goal
- **Calm-** Helps to sleep better, boost confidence, and reduce stress and anxiety with meditations, soothing music, and stories
- **Headspace-** Has many different guided meditations for different scenarios and times, meant to help with mindfulness. Can also help with getting into a routine with meditations daily, morning or night
- **Ten Percent Happier-** Based on the 10% Happier book, guided meditations, videos, talks, sleep content
- **Sanvello-** Works with therapists to help handle stress, anxiety, and depression. You can also record your mood and health activities each day to find patterns
- **notOK-** a digital panic button that makes it easier to get help, developed by teens
- **Replika-** A chat box you can measure or talk to when you're feeling down, a companion for mental wellness

# Resources- Podcasts

- **Therapy Chat-** therapists talking about the benefits of therapy and different types
- **Real Pod-** body image, eating disorder awareness, mental health, confidence
- **Sike Ward-** fighting mental health stigma, working through life living with mental illness
- **Anything Goes with Emma Chamberlain-** advice from Emma, talking about anything and everything including real talk about mental health
